

Meeting Agenda: Finish domain model

Date: 14-04-2016

Facilitator: Julia

Participants: Kevin, Petros, Eric, Long

1. Objectives (5 min). Resolve any issues preventing the team to continue.

Do we need a database and server?

How to connect the user with the host?

- Short clear description ([http://en.wikipedia.org/wiki/Issue_tracking_system||use an issue tracking system]).

2. Reports (15 min) from previous meeting

- Each groupmember reports outcome of assigned issues, see also 4)

3. Discussion items (35 min)

- Discuss issues from 1 and 2, possibly new or more general issues (very short notes and/or keywords)

Domain Diagram

Do we need a database and server?

How to connect the user to the host?

Do we need two apps?

How to update menu without updating the app?

4. Outcomes and assignments (5 min)

Finished Domain Diagram

Use an interface that connects database(doesn't matter what database)

Make one app for the user and host. (User view and Host view in the same app)

updating without updating app requires database(maybe too much work)

need a server to connect host and guest.

- Outcomes from 3). I.e. write down what's decided and why it was decided? Sync with other documentation (add terms to wordbook)

- From outcomes, 1), 2) and 3) (re)assign each groupmember

issues to solve.

5. Wrap up

- Write down unresolved issues for next meeting.
- Time and location for next meeting
